

Lesson tasks

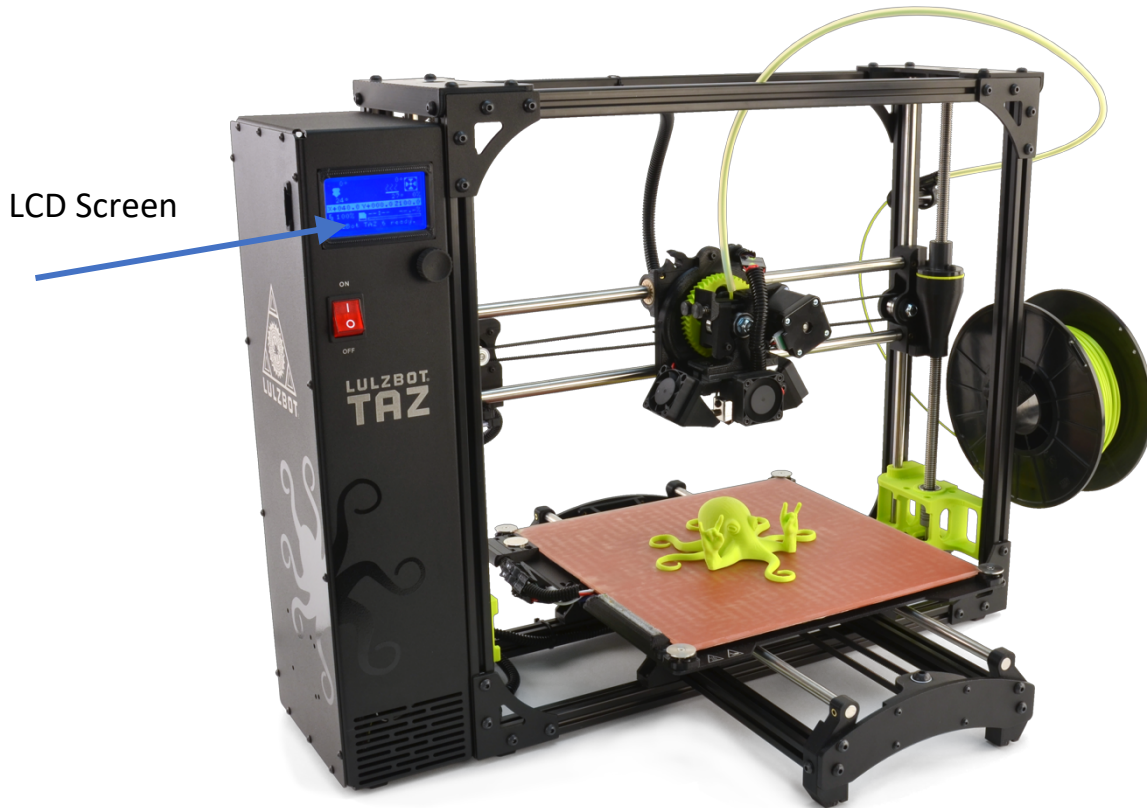

- 3D Printers are becoming more and more widespread in our everyday lives. Using examples explain how 3D Printers are making a positive impact in our society.

- Looking at the map of all the 3D Printers in the world. Explain why Europe and the USA have the highest concentration of 3D Printers compared to Africa and parts of Asia?

3. Label the 3D Printer showing the key parts of it (an example has been done for you).

LCD Screen, Extruder, Cooling Fan, Filament, Build Plate

4. Describe how a 3D Printer works and identify some safety rules that you should follow when using a 3D Printer.
